To ensure the safety of both employees and the organization, effective emergency communication is crucial. Many organizations use alarm systems to warn employees, but while these are effective, they cannot provide detailed information and are not suitable for all events. Meet Alerts, a comprehensive alerting solution that completes your emergency communication portfolio.

Alert everyone

Send urgent notifications to all devices and screens in your organization with a single push of a button.

Inform instantly

Deliver real-time alerts with text, icons, and ANSI safety color codes for clear and fast emergency communication.

Prepare optimally

Optimize preparation and ensure rapid response by utilizing pre-defined Alert Scenarios with varying priority levels.

Try it yourself

Take a quick guided tour and experience how it works. It only takes a few minutes.
