To ensure smooth and safe operations, it's crucial for organizations to provide effective training in areas such as compliance, cybersecurity, and employee safety. Despite investing significant time and money in extensive e-learning modules and costly annual training sessions to equip employees with the necessary knowledge, the outcomes often don't meet expectations. It's time for a radical change in employee training through unique, AI-powered training. Meet Netpresenter Smart Campaigns – the first employee training feature in the industry that is powered by AI agent technology.

Create easily

Write knowledge modules, generate quiz questions, and create slides using AI to produce effective content.

Raise Awareness

Share crucial information across all screens, ensuring essential knowledge is seen, understood and remembered.

Train automatically

Automatically adjust training based on test results until learning goals are achieved with AI Agent technology.

Try it yourself

Take a quick guided tour and experience how it works. It only takes a few minutes.
