Employees receive numerous emails, intranet notifications, and chat messages daily. Many of these messages are not read (properly or timely), causing internal communications to easily become buried and crucial information to be missed. When a PC is locked, it becomes even harder to reach employees. The Corporate Lock Screen helps you overcome these challenges.

Inform effectively

Display messages directly on every employee's locked screen to maximize visibility and retention without disturbing.

Make impact

Attract attention with full-screen visuals in your corporate branding and prompt action with QR codes.

Deploy easily

Update Lock Screens for the entire organization without complicated installations or IT involvement.

Try it yourself

Take a quick guided tour and experience how it works. It only takes a few minutes.
